PROFESSIONAL SUMMARY

BSc Computing student at Informatics College Pokhara (London Metropolitan University) with hands-on experience shipping production-grade web and mobile applications using React/Next.js and React Native. Built and deployed six independent projects — including a social platform, an iOS app, and a seating system used in production — demonstrating the ability to own a product from architecture to deployment. Seeking an internship or junior developer role where I can contribute immediately while growing within a product-focused team.

EDUCATION

Informatics College Pokhara

Sep 2024 – Present (Expected 2027)

BSc (Hons) Computing — Computer Science, awarded by London Metropolitan University

Relevant Coursework: Software Engineering, Data Structures & Algorithms, Database Systems, Web Development, Operating Systems

- Volunteered at Futurama, ICP Graduation, and MST Carnival — college-organized events

Shree Shitaladevi Community Secondary School

2022 – 2024

High School — Management | GPA: 3.03 / 4.0

ACADEMIC & PERSONAL PROJECTS

Exam Seat Plan — Seating Management System — Lead Developer

Apr 2026

React 18 | Vite | TypeScript | Django REST Framework | JWT

- Built an automated exam seating system for the RTE Department at Informatics College Pokhara, now used in production for every exam cycle
- Built the React 18 + Vite + TypeScript frontend and helped design the Django REST API structure (endpoints, JWT auth flow) for admin room management and student seat lookup
- Delivered admin panel, automated seat assignment engine, and one-click PDF export — eliminating all manual planning

Brain Base — Second Brain App — Solo Developer

May 2026

Next.js 16 | TypeScript | Prisma | NextAuth v5 | Tailwind v4

- Designed and shipped an open-source self-hostable productivity app combining notes, SM-2 spaced repetition, [\[\[wikilink\]\]](#) knowledge graph, focus timer, and daily journal
- Implemented SM-2 spaced repetition algorithm from scratch for adaptive review scheduling without third-party dependencies
- Deployed as a PWA with offline support on Vercel; fully self-hostable, no subscriptions

Line — Poetry Social Platform — Solo Developer

May 2026

React Native | Expo | Firebase | TypeScript

- Built a mobile-first social network for poets with feed, follows, 1:1 real-time DMs, collections, and push notifications

- Implemented optimistic UI for likes and comments; single Expo codebase for iOS and Android builds

SKILLS

Hard Skills

- Languages: JavaScript, TypeScript, Python, Java, Swift, Dart
- Frameworks: React, Next.js, React Native, Node.js, SwiftUI, Expo
- Databases: Firebase, PostgreSQL, Supabase, MongoDB, Prisma
- DevOps: Cloudflare Pages/Workers, Vercel, Docker, Git, CI/CD
- APIs & Auth: Notion API, GitHub API, NextAuth v5, Resend, hCaptcha
- Design: Figma, Tailwind CSS

Soft Skills

- Self-directed learning
- Problem decomposition
- Attention to detail
- Adaptability
- Written communication
- Bilingual (Nepali & English)

CERTIFICATIONS & TRAINING

Java Object-Oriented Programming — LinkedIn Learning | 2024

LEADERSHIP & EXTRACURRICULAR

ICP Developers' Community — Club Leader & Lead Frontend Developer

2025 – Present

- Lead the student developer community at Informatics College Pokhara; oversee frontend architecture decisions and community initiatives
- Built and maintain the community's public-facing website: icp-developers-community.vercel.app

InnoHack 2026 — Co-Organizer

2026

- Co-organized ICP's annual hackathon; coordinated logistics, judging panels, and participant communications for 50+ participants

InnoHack 2025 — Participant

2025

- Competed and shipped a functional product within a 7-hour window
