

DARSHAN REGMI

FULL-STACK & MOBILE DEVELOPER

Pokhara, Nepal **+977 9748212381** **darshanregmi.official@gmail.com**
Github **Linkedin** **darshanregmi.com.np**

PROFESSIONAL SUMMARY

BSc Computing student with hands-on experience building production-ready web and mobile applications using React, Next.js, Node.js, and React Native. Shipped multiple full-stack projects independently from IoT platforms to cross-platform apps with a focus on clean architecture, real-world performance, and user-centered design.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript
Frameworks: React, Next.js, React Native, Node.js, Expo
Styling: Tailwind CSS
Backend / Cloud: Firebase, REST APIs, Cloudflare Workers
Tools: Git, CI/CD

PROJECTS

VEON — INDEPENDENT WEB APP STORE | NEXT.JS · FIREBASE · CLOUDFLARE · TYPESCRIPT

Live: veon.pages.dev GitHub: github.com/darshan-regmi/veon

Built a platform to distribute Android APKs with admin panel, version management, and download tracking
Integrated GitHub Releases API for automated update delivery; deployed globally via Cloudflare CI/CD

VEIL — POETRY READING APP | REACT NATIVE · EXPO · NOTION API · TYPESCRIPT

GitHub: github.com/darshan-regmi/veil

Developed a cross-platform mobile app (iOS/Android) for discovering and reading poetry
Integrated Notion API to enable real-time content updates without app redeployment

SILENS — CMS / WRITING PLATFORM | TYPESCRIPT · NEXT.JS · REACT · TAILWIND CSS

GitHub: github.com/darshan-regmi/silens

Built a distraction-free writing and publishing platform with instant cross-platform content delivery

SMARTNEST — SMART HOME PLATFORM | TYPESCRIPT · REACT · NODE.JS

GitHub: github.com/darshan-regmi/SmartNest

Developed a full-stack IoT platform with real-time device control and scalable REST API backend
